- \* The real reason why you should ever be squeamish about using memorization techniques so that you can recall legal terminology and precedents with ease.
- \* Why and how some of the most famous memory skills are applicable to learning any subject, especially the law.
- \* How you can easily create a 26 "letter location" memory system based around the alphabet to establish "legal fluency."
- \* Unique techniques that will have you literally "tuning in" on the law and its terminology.
- \* How to separate and organize legal terminology in the most effective manner for memorization.
- \* Two secret ways you can use relaxation to aid the memorization process. These two methods alone are worth the price of this book because they will literally eliminate the stress and apprehension as you study, learn and memorize the law.
- \* And much, much more ...

These techniques have been used by real students of the law to make real strides in their professional careers as legal experts, most of whom previously considered themselves owners of a "bad memory."

Don't worry! None of these techniques are rocket science.

Frankly, if you can memorize a short email address or the name of a movie, then you can use this system to memorize legal terminology and precedents.

But there's really no time to lose.

Every day that you are not using this simple memorization system, you are literally stealing from yourself the joy of being able to recall an abundance of legal terminology as you easily expand the natural abilities of your mind.
