Managing Projects as Investments: Earned Value to Business Value (Industrial Innovation Series)

Stephen A. Devaux

Every project is an investment; however, traditional project management methodologies do not support assessment of the business value that enables senior management to maximize decision making. The next evolution in project management, therefore, will be to manage projects as investments. **Managing Projects as Investments: Earned Value to Business Value** provides tools and metrics to enable planning, measuring, evaluating, and optimizing projects.

This book shifts the paradigm. It builds on traditional scope-cost-schedule tools, adding a critical new focus on the expected value of projects and programs. The enhancements in processes and metrics allow senior management and PMOs to guide the entire organization on the basis of business benefits, and to ensure that decisions ranging from project selection to resource assignment facilitate those goals. The author shows how framing projects as investments enables significant improvement in project performance. He provides metrics that allow you and your team to track and maximize performance based on ROI.

Demonstrating the importance of recognizing an enabler project in a program, and why its value and cost of time are so great, the book provides the tools to determine right-sized staffing levels for project-driven organizations. It includes a comprehensive but easy-to-understand explanation of both basic and advanced earned value metrics, their shortcomings, and how they can be improved and shows you how to optimize contract terms on projects in a way that can avoid misaligned customer/contractor goals.

From reader reviews:

Patrick Lyon:

Book is usually written, printed, or descriptive for everything. You can recognize everything you want by a book. Book has a different type. We all know that that book is important matter to bring us around the world. Beside that you can your reading skill was fluently. A book Managing Projects as Investments: Earned Value to Business Value (Industrial Innovation Series) will make you to end up being smarter. You can feel a lot more confidence if you can know about every thing. But some of you think that open or reading some sort of book make you bored. It's not make you fun. Why they are often thought like that? Have you searching for best book or ideal book with you?

Diane Gibbons:

This book untitled Managing Projects as Investments: Earned Value to Business Value (Industrial Innovation Series) to be one of several books that will best seller in this year, here is because when you read this publication you can get a lot of benefit in it. You will easily to buy this particular book in the book retail outlet or you can order it by means of online. The publisher of the book sells the e-book too. It makes you easier to read this book, as you can read this book in your Mobile phone. So there is no reason to your account to past this publication from your list.

Homer Douglas:

This Managing Projects as Investments: Earned Value to Business Value (Industrial Innovation Series) is great e-book for you because the content which is full of information for you who always deal with world and still have to make decision every minute. This book reveal it data accurately using great manage word or we can state no rambling sentences in it. So if you are read the item hurriedly you can have whole facts in it. Doesn't mean it only offers you straight forward sentences but difficult core information with wonderful delivering sentences. Having Managing Projects as Investments: Earned Value to Business Value (Industrial Innovation Series) in your hand like having the world in your arm, data in it is not ridiculous 1. We can say that no guide that offer you world inside ten or fifteen second right but this guide already do that. So , this really is good reading book. Hey Mr. and Mrs. stressful do you still doubt which?

Frederica Dawkins:

As a college student exactly feel bored to reading. If their teacher inquired them to go to the library as well as to make summary for some guide, they are complained. Just very little students that has reading's spirit or real their hobby. They just do what the instructor want, like asked to go to the library. They go to generally there but nothing reading really. Any students feel that looking at is not important, boring along with can't see colorful photos on there. Yeah, it is to get complicated. Book is very important for yourself. As we know that on this age, many ways to get whatever we really wish for. Likewise word says, many ways to reach Chinese's country. Therefore this Managing Projects as Investments: Earned Value to Business Value

(Industrial Innovation Series) can make you sense more interested to read.
