Today's science fairs are more challenging than ever before, with projects that are much more sophisticated than your dad's old volcano model. That's why this follow-up to the classic Complete Handbook of Science Fair Projects, by Julianne Bochinski, presents 35 all-new, award-winning science fair projects developed and presented by actual students. More Award-Winning Science Fair Projects gives you the information you need to compete in today's science fairs.

Each project includes:

- \* A detailed introduction, including the purpose and hypothesis
- \* A complete list of materials needed
- \* Step-by-step instructions on how to carry out the experiment
- \* Inquiry questions to help you evaluate your own results

In addition, this book gives you a thorough introduction to developing your own science project, from choosing and researching a topic and finding a mentor, to organizing experiments and data and setting up a backboard, to delivering a top-notch oral presentation. Plus, you'll find over 400 ideas for science fair topics, 100 award-winning project titles, project supply sources, science fair listings, and more.

Creating a successful science fair project can be an exciting, challenging, and rewarding experience. Get in on the fun and create an interesting, impressive project of your own. You'll be amazed at what you can accomplish with More Award-Winning Science Fair Projects!
