A penetrating new examination of the triangular political and cultural relationship between America, Britain, and continental Europe.

This relationship is both fraught and dynamic. Post-war reconstruction of Europe brought integration. Creating a 'United States of Europe' was a goal shared by many Americans. Yet the contemporary 'War on Terror', has redefined relationships between America, Britain, 'old' and 'new' Europe. This book brings together experts from Britain, Europe and America to explore the complexities of contemporary cultural and political relationships, considering the challenges that have been met and those that have to be faced.
