Geriatric Rehabilitation: A Textbook for the Physical Therapist Assistant Jennifer Bottomley PhD2 MS PT

As the aging population continues to increase, so does the need for a text specific to the specialized care of the elderly patient as it applies to the physical therapist assistant student, faculty, and clinician.

Geriatric Rehabilitation: A Textbook for the Physical Therapist Assistant, recognizes the growing role of the PTA in a variety of health care settings from acute to home to long-term care settings, to name a few.

Inside *Geriatric Rehabilitation*, Dr. Jennifer Bottomley, along with her contributors, focuses on the clinically relevant assessment, treatment, and management of the geriatric population. Pathological manifestations commonly seen in the elderly patient are addressed from a systems perspective, as well as a focus on what is seen clinically and how it affects function.

Each pathological area covered includes:

- Screening, assessment, and evaluation
- Treatment prescription
- Goal setting
- Modification of treatment
- Anticipated outcomes
- Psychosocial, pharmacological, and nutritional elements

The organization and presentation of the practical, hands-on components of interventions, assessments, and decision-making skills make this a go-to text for the PTA to administer comprehensive geriatric care at each point along the continuum of care.

Some of the features inside include:

- Emphasis on treatment interventions—techniques, tips, and options
- Focus on how assessment tools and treatments are applied and modified to benefit the geriatric population, and what the expected outcomes are
- Clear and outlined chapter objectives
- User-friendly summary tables in the nutritional and pharmacology chapters
- Pearls that highlight important chapter information
- Appendices and study aids

Geriatric Rehabilitation: A Textbook for the Physical Therapist Assistant answers the call for a text that focuses on the management of geriatric patients across the spectrum of care for the PTA, from students to those practicing in geriatric populations.
