PHP Object-Oriented Solutions David Powers

With the surge of popularity of PHP 5, object-oriented programming is now an important consideration for PHP developers. This version-neutral book is a gentle introduction to object-oriented programming (OOP) that won't overburden you with complex theory. It teaches you the essential basics of OOP that you'll need to know before moving onto a more advanced level, and includes a series of prepackaged scripts that you can incorporate into your existing sites with the minimum of effort.

It shows how object-oriented programming can be used to create reusable and portable code by walking you through a series of simple projects. The projects feature the sorts of things developers run up against every day, and include a validator for filtering user input, a simple Date class that avoids the need to remember all the esoteric format codes in PHP, and an XML generator.

- Teaches the fundamentals of OOP
- Simple projects show how OOP concepts work in the real world
- Prepackaged scripts can easily be added to your own projects

From reader reviews:

Lindsey Gant:

What do you think about book? It is just for students since they are still students or that for all people in the world, the actual best subject for that? Merely you can be answered for that issue above. Every person has various personality and hobby for each other. Don't to be pressured someone or something that they don't need do that. You must know how great and also important the book PHP Object-Oriented Solutions. All type of book are you able to see on many solutions. You can look for the internet options or other social media.

Rodney Sierra:

This PHP Object-Oriented Solutions is great e-book for you because the content which is full of information for you who always deal with world and have to make decision every minute. That book reveal it info accurately using great organize word or we can say no rambling sentences inside. So if you are read the item hurriedly you can have whole details in it. Doesn't mean it only provides you with straight forward sentences but tricky core information with wonderful delivering sentences. Having PHP Object-Oriented Solutions in your hand like having the world in your arm, information in it is not ridiculous one. We can say that no guide that offer you world inside ten or fifteen tiny right but this e-book already do that. So , this really is good reading book. Hello Mr. and Mrs. busy do you still doubt that?

Charlotte Ramsey:

This PHP Object-Oriented Solutions is fresh way for you who has fascination to look for some information because it relief your hunger associated with. Getting deeper you in it getting knowledge more you know otherwise you who still having tiny amount of digest in reading this PHP Object-Oriented Solutions can be the light food to suit your needs because the information inside this kind of book is easy to get by means of anyone. These books develop itself in the form and that is reachable by anyone, yes I mean in the e-book contact form. People who think that in publication form make them feel tired even dizzy this reserve is the answer. So there is not any in reading a reserve especially this one. You can find actually looking for. It should be here for you. So , don't miss the item! Just read this e-book type for your better life along with knowledge.

Steven Delorme:

As a student exactly feel bored to be able to reading. If their teacher expected them to go to the library or to make summary for some publication, they are complained. Just minor students that has reading's spirit or real their leisure activity. They just do what the educator want, like asked to the library. They go to at this time there but nothing reading seriously. Any students feel that studying is not important, boring and also can't see colorful photos on there. Yeah, it is being complicated. Book is very important in your case. As we know that on this time, many ways to get whatever you want. Likewise word says, ways to reach Chinese's country. So , this PHP Object-Oriented Solutions can make you sense more interested to read.
