*Lost Moon: The Perilous Voyage of Apollo 13*

By Jim Lovell & Jeffrey Kluger

*W kwietniu 1970 roku Amerykanie wystrzelili kolejny statek kosmiczny w ramach programu Apollo. Dowódca wyprawy był Jim Lovell, towarzyszyli mu Jack Swigert i Fred Haise. Plan przewidywał lądowanie na Księżycu. Ale w piątdziesiątej piątej godzinie lotu statkiem wstrząsnął tajemniczy wybuch; chwilę potem zagrała alarmowa syrena spadku napięcia w sieci i cięcia tlenu. W kabinie zaczęło robić się coraz ciemniej, przyrządy odmawiały posłuszeństwa, astronautom groziło, że wkrótce nie będą mieli czym oddychać... Trwajcie sześć dni walk personelu Centrum Kontroli Lotów NASA w Houston o życie załogi Apolla 13 obserwowanej z zapartym tchem całym światem.*

In April 1970, during the glory days of the Apollo space program, NASA sent Navy Captain Jim Lovell and two other astronauts on America's fifth mission to the moon. Only fifty-five hours into the flight of Apollo 13, disaster struck: a mysterious explosion rocked the ship, and soon its oxygen and power began draining away. Commander Lovell and his crew watched in alarm as the cockpit grew darker, the air grew thinner, and the instruments winked out one by one. The full story of the moon shot that almost ended in catastrophe has never been told, but now Lovell and coauthor Jeffrey Kluger bring it to vivid life.
