**Theory of Relativity for the Rest of Us but not for Dummies: Theory of Relativity Simplified** James Thomas

Does the theory of relativity have you confused? You're certainly not alone. There's a reason why scientific textbooks devote entire chapters (indeed, even entire books) to the concepts behind the theory of relativity. It's a complicated subject. Or is it?

As you'll learn in this book, that question, like all others, is relative to your point of reference. While this book will only scratch the surface of the theory of relativity, it should give you an easy to understand foundation upon which you can build an understanding of the theory of relativity.
