**Modern Materials and Manufacturing Processes (2nd Edition)** John Neely, R. Gregg Bruce

Appropriate for introductory undergraduate engineering technology courses in Materials and Manufacturing processes, including Material Science and Metallurgy. This text introduces the current state-of-the-art technology in materials and manufacturing processes with an emphasis on the rapidly growing technologies in the plastics and aerospace industries. It takes a unique approach by presenting specific materials and manufacturing processes, then progressing into a discussion of the ways in which these materials and processes are integrated into today's functioning manufacturing industry. This text was formerly Neely-Modern Materials and Manufacturing Processes.
