Culture, Leadership, and Organizations: The GLOBE Study of 62 Societies

Culture, Leadership, and Organizations reports the results of a ten-year research program, the Global Leadership and Organizational Behavior Effectiveness (GLOBE) research program. GLOBE is a long-term program designed to conceptualize, operationalize, test, and validate a cross-level integrated theory of the relationship between culture and societal, organizational, and leadership effectiveness. A team of 160 scholars worked together since 1994 to study societal culture, organizational culture, and attributes of effective leadership in 62 cultures. **Culture, Leadership, and Organizations: The GLOBE Study of 62 Societies** reports the findings of the first two phases of GLOBE. The book is primarily based on the results of the survey of over 17,000 middle managers in three industries: banking, food processing, and telecommunications, as well as archival measures of country economic prosperity and the physical and psychological well-being of the cultures studied.
