*From the authors of the best-selling Habits of Mind...*

Two leading consultants present a game-changing look at why and how to “mind the gap” between what we claim are educational essentials, and how we evaluate results.

*Dispositions* builds on the authors’ influential *Habits of Mind* writings, including new evidence of why influencing students’ dispositional habits is their key to finding meaning in classroom content. Topics include:

- Making dispositions come alive in the minds of students
- Shifting the thinking of educational leaders, parents, politicians and the public
- How to align day-to-day classroom practices with larger dispositional outcomes
