Written by two experienced lesbian therapists and parents, this second edition of Lesbian Parenting has been updated to reflect the contemporary cultural and political landscape, as well as current trends in parenting. Drawing on the real-life experiences of lesbian families and the latest information from family specialists, the authors present detailed, chapter-by-chapter information on each stage of parenthood and child development. New material includes information on circumcision, Internet safety, legal hoops for non-custodial parents, the facts about late-in-life pregnancies, moms working inside and outside of the home, and more. An essential text for every lesbian who is involved in—or considering—raising a family.
