First published in 1988, this encyclopedia serves as an overview and point of entry to the complex interdisciplinary field of Victorian studies. The signed articles, which cover persons, events, institutions, topics, groups and artefacts in Great Britain between 1837 and 1901, have been written by authorities in the field and contain bibliographies to provide guidelines for further research. The work is intended for undergraduates and the general reader, and also as a starting point for graduates who wish to explore new fields.
