## Horizons Mathematics Grade 3: Home School Curriculum Kit (Lifepac) VARIOUS

No more hours of boring, endless repetition - your kids will actually thank you for this interactive math curriculum! Each level has two student workbooks, but the teacher handbook is the main component of the program. All instruction is provided through one-on-one teacher instruction, which is the biggest difference between Horizons and the self-guided Lifepacs. Another big focus in Horizons is hands-on learning using a variety of manipulatives, which can mostly be found around the house: pencils, pipe cleaners, play or real money, thread, a timer, clock, yardstick, etc. Novice home-educators should not be intimidated by the amount of teacher involvement as it is carefully laid out in the beginning of each year's teacher handbook. The teacher handbook also provides a variety of teaching suggestions and supplemental activities for additional practice. The concepts covered in Horizons 3 include: Multiplication up to four digits Division with 2 digit divisors with remainders Algebraic equations introduced. 176, 178 pages student softcover. 352, 346 teachers guides; spiral-bound reduced student pages.
