**Maps of Narrative Practice (Norton Professional Books (Hardcover)) Michael White**

**Michael White, one of the founders of narrative therapy, is back with his first major publication since the seminal *Narrative Means to Therapeutic Ends*, which Norton published in 1990.**

*Maps of Narrative Practice* provides brand new practical and accessible accounts of the major areas of narrative practice that White has developed and taught over the years, so that readers may feel confident when utilizing this approach in their practices. The book covers each of the five main areas of narrative practice-re-authoring conversations, remembering conversations, scaffolding conversations, definitional ceremony, externalizing conversations, and rite of passage maps-to provide readers with an explanation of the practical implications, for therapeutic growth, of these conversations. The book is filled with transcripts and commentary, skills training exercises for the reader, and charts that outline the conversations in diagrammatic form. Readers both well-versed in narrative therapy as well as those new to its concepts, will find this fresh statement of purpose and practice essential to their clinical work.
