Quaternary Glaciations - Extent and Chronology: Part III: South America, Asia, Africa, Australia, Antarctica (Developments in Quaternary Science) J. Ehlers, P.L. Gibbard

This book is the last of three volumes in which the recent knowledge of the extent and chronology of Quaternary glaciations has been compiled on a global scale. This information is seen as a fundamental requirement, not only for the glacial community, but for the wider user-community of general Quaternary workers. In particular the need for accurate ice-front positions is a basic requirement for the rapidly growing field of palaeoclimate modelling. In order to provide the information for the widest-possible range of users in the most accessible form, a series of digital maps was prepared.

The glacial limits were mapped in ArcView, the Geographical Information System (GIS) used by the work group. Included with the publication is a CD with digital maps, showing glacial limits, end moraines, ice-dammed lakes, glacier-induced drainage diversions and the locations of key sections through which the glacial limits are defined and dated. Where controversial interpretations are possible, such as for High Asia, they are indicated. All information on Quaternary glaciations worldwide is presented for the first time in a uniform format, including the mountain glaciations of regions such as Costa Rica, Ethiopia or Taiwan. The digital maps in this volume cover Latin America, Asia, Africa, Australasia, Antarctica. Both overview maps and more detailed maps at a scale 1: 1,000,000 are provided.

Also available:

Part I: Europe, ISBN 0-444-51462-7

Part II: North America, ISBN 0-444-51592-5

From reader reviews:

Myra Flory:

Do you have something that you want such as book? The publication lovers usually prefer to decide on book like comic, small story and the biggest one is novel. Now, why not striving Quaternary Glaciations - Extent and Chronology: Part III: South America, Asia, Africa, Australia, Antarctica (Developments in Quaternary Science) that give your enjoyment preference will be satisfied by reading this book. Reading practice all over the world can be said as the method for people to know world a great deal better then how they react to the world. It can't be explained constantly that reading behavior only for the geeky man or woman but for all of you who wants to be success person. So , for every you who want to start examining as your good habit, you may pick Quaternary Glaciations - Extent and Chronology: Part III: South America, Asia, Africa, Australia, Antarctica (Developments in Quaternary Science) become your personal starter.

Beverly Barber:

Your reading sixth sense will not betray you actually, why because this Quaternary Glaciations - Extent and Chronology: Part III: South America, Asia, Africa, Australia, Antarctica (Developments in Quaternary Science) guide written by well-known writer whose to say well how to make book that can be understand by anyone who read the book. Written with good manner for you, still dripping wet every ideas and creating skill only for eliminate your own personal hunger then you still doubt Quaternary Glaciations - Extent and Chronology: Part III: South America, Asia, Africa, Australia, Antarctica (Developments in Quaternary Science) as good book not only by the cover but also with the content. This is one guide that can break don't determine book by its include, so do you still needing an additional sixth sense to pick that!? Oh come on your looking at sixth sense already told you so why you have to listening to an additional sixth sense.

Edward Franco:

Reading a book for being new life style in this season; every people loves to read a book. When you read a book you can get a large amount of benefit. When you read publications, you can improve your knowledge, due to the fact book has a lot of information into it. The information that you will get depend on what forms of book that you have read. If you wish to get information about your review, you can read education books, but if you want to entertain yourself look for a fiction books, such us novel, comics, as well as soon. The Quaternary Glaciations - Extent and Chronology: Part III: South America, Asia, Africa, Australia, Antarctica (Developments in Quaternary Science) offer you a new experience in reading through a book.

Kimberly Casselman:

That e-book can make you to feel relax. This particular book Quaternary Glaciations - Extent and Chronology: Part III: South America, Asia, Africa, Australia, Antarctica (Developments in Quaternary Science) was colorful and of course has pictures on the website. As we know that book Quaternary

Glaciations - Extent and Chronology: Part III: South America, Asia, Africa, Australia, Antarctica (Developments in Quaternary Science) has many kinds or type. Start from kids until adolescents. For example Naruto or Private investigator Conan you can read and think you are the character on there. Therefore , not at all of book tend to be make you bored, any it offers you feel happy, fun and loosen up. Try to choose the best book for you personally and try to like reading that.
