**Alkali-Activated Cements and Concretes** Caijun Shi, Della Roy, Pavel Krivenko

The first English-language book which reviews and summarizes worldwide research advances in alkali-activated cements and concrete. Essential topics include:

- raw materials and their properties for the production of the two new types of binder
- the hydration and microstructure development of alkali-activated slag cements
- the mechanical properties and durability of alkali-activated slag cement and concrete
- other various cementing systems and their applications
- related standards and specifications.

This respected team of authors has produced an important piece of research that will be of great interest to professionals and academics alike, enabling the production of more durable and environmentally sensitive materials.
