An illustrated novel that dives into the world of the 2010 Miramax film “Don’t be Afraid of the Dark.” The movie is a PG-13 thriller written and produced by Guillermo del Toro, starring Guy Pearce and Katie Holmes, about a young girl sent to live with her father and his girlfriend. They move into a historic New England house, which is secretly inhabited by a brood of small creatures. These creatures seem at first to be playful figments of his daughter’s imagination, but quickly turn into a deadly threat.

The book, co-written by Guillermo Del Toro and Christopher Golden, takes place a hundred years before the movie begins. It chronicles the travels and adventures of a young nature scientist who begins to understand there’s more to the world than science understands.
