**Notes on Paediatrics: Neonatology** Alex Habel, Rod Scott

Up-to-date, concise notes on neonatology for use in a practical setting and for preparation for exams. It contains information on the most recent developments in pathophysiology.

Each book in this series of three titles focuses on an important and distinct area of paediatrics. The concise notes cover most problems presenting and their appropriate management. Difficult areas are covered, such as breaking bad news, genetic counselling, strategies for asthma, epilepsy and neonatal problems. Supported by essential details of background, these books are designed as a source of immediate reference when preparing for, and during clinical consultations.
