After her father's death, the last thing Ava Windsor wants is to leave Earth and move to an Elite colony on the moon for the next ten months. Nicolas Carter, a man she doesn't even remember meeting, is to be her custodian until she reaches the age of twenty-one. Until then, she is not allowed to touch the money her dad has left her. Being the only child of a disowned Elite father and a common mother just got a lot more complicated.

But surviving among the Luna Six Elitists who treat commoners as servants should have been the least of Ava's worries. Nicolas Carter is nothing like she expected. He condemns the Elite lifestyle, he is a lot younger than her father, and he is definitely way sexier.

Ten months on the moon seem like an eternity if you know you shouldn't be falling for your guardian... but just can't help yourself.

A sweet, steamy romance novella for lovers of New Adult with a hint of Futuristic.
